

## ULTIMATE AGREE OUTPOST CAMP CLOTHING AND GEAR LIST

**Please read for details about the gear necessary for a wonderful summer!**

- Hiking Boots Boots **MUST** come up OVER the ankle bone. Boots must have good ankle support and be well-broken in before camp starts. Low-cut day-hikers are NOT acceptable as hiking boots.
- Daily Wear Shoes Must have at least one pair of **closed-toed** shoes for daily wear. Sandals may be worn to the shower and to the beach.
- Wet Shoes **Must Have:**  
Closed-Toed  
Significant tread and support  
\*Converse All Stars or an old pair of athletic shoes are a great choice. These shoes will always be wet and will probably be discarded at the end of the summer.
- Hiking Socks Synthetic "wool" are required. SmartWool or Thorlo are fabulous. Sock liners are only needed if you are wearing natural wool sock.
- Lightweight, long-sleeved work shirts Great for keeping away bugs and sunburn on trips. MUST button down and be 100% cotton or synthetic. You can find these at Salvation Army!
- Hiking Pants Durable, light weight material that will dry quickly. Must reach the ankle (no capris). Zip-off pants are a plus but not required.
- Rain-suit **ABSOLUTELY ESSENTIAL** to ensure health and comfort in bad weather. RAINCOAT must have a hood with a drawstring and/or snaps. RAIN PANTS should have an elastic waistband and snaps or elastic at the ankles. The material must be "Coated Nylon" that will breathe.
- Fleece or Wool Sweater Fleece and wool are both warm even when wet and thus essential to safety in the backcountry. A crew-neck 100% wool or fleece pullover is a required item on all back-country trips. Avoid bulky fleece for packing space.
- Thermal Underwear **ABSOLUTELY NO COTTON.** Polypropylene or Capilene are ideal. Ask at any camping store.
- Utility Straps Very important. Used for strapping things to other things and have 1001 uses in camp and the backcountry. Straps that are 48" x ½" are recommended.
- Sleeping Pad A simple foam pad is sufficient. RidgeRest and Ensolite make a basic pad that is very comfortable. Inflatable pads are **not** recommended.
- Sleeping Bag If you are purchasing a new bag, keep this in mind:  
1) Bags should have a 20°F temperature rating or lower.

- 2) The bag should be filled with synthetic material such as Holofill, Polar Guard, Qualofill, Polyfill, etc.
- 3) Cotton and Goose down bags become heavy and lose their insulation properties when wet. DO NOT get this type of bag.
- 4) A nylon stuff sack with a drawstring is required. **MAKE SURE YOUR BAG FITS INTO YOUR STUFF SACK PROPERLY.**
- 5) Once stuffed, your bag MUST NOT exceed 10" x 22". Smaller than this is great. Most bags weigh between 2-3 pounds.

Nylon Stuff Sack

These will be used to pack for trips. Medium sized sacks with drawstrings make for an easier time fitting lots of things into small-ish packs. **You should have a minimum of two stuff sacks - one for your Sleeping bags and one for your clothing on the trips.**

Duffel Bag

Space is limited at Agree, therefore each camper is limited to one duffel. **Please DO NOT bring the enormous bags that they sell at Brody's.** The medium size is more than sufficient for the clothing we will need for Agree. Sleeping bags, pillows, and hiking boots DO NOT have to fit in the duffel.

Water Bottles

At least two 32 oz. (1 liter) bottles are required. Nalgene brand is recommended. Please DO NOT buy the Cyclone brand often sold as an option because they do not fit in our packs. You are welcome to bring a water bladder in addition to bottles, but not instead of bottles. **You must have at least two water bottles.**

Bug Repellent

NO SPRAY CANS ALLOWED. A strong concentration of DEET is needed. Controlled Release DEET by Sawyer Products or Muskol in cream form is the recommended brand.

Biodegradable Shampoo/Conditioner

Please check the back of the bottle for the label "Biodegradable." Most products labeled "Natural" are not biodegradable. Check your local food co-op for good brands.

Biodegradable Soap

Dr. Bronner's or Campsuds are the only soaps we will be using in the backcountry. The soaps are highly concentrated, so a small bottle will be sufficient.

PLEASE IDENTIFY ALL PERSONAL ITEMS AND EQUIPMENT

**Please do not bring watches, clocks, cell phones, mp3 players, electronic games, makeup, expensive jewelry or knives.**

**Agree policies are discussed at parent camper meetings.**

As always, please feel free to contact Jason Charnas with any questions or concerns, 248-647-1100 or charnas@tamarackcamps.com.
